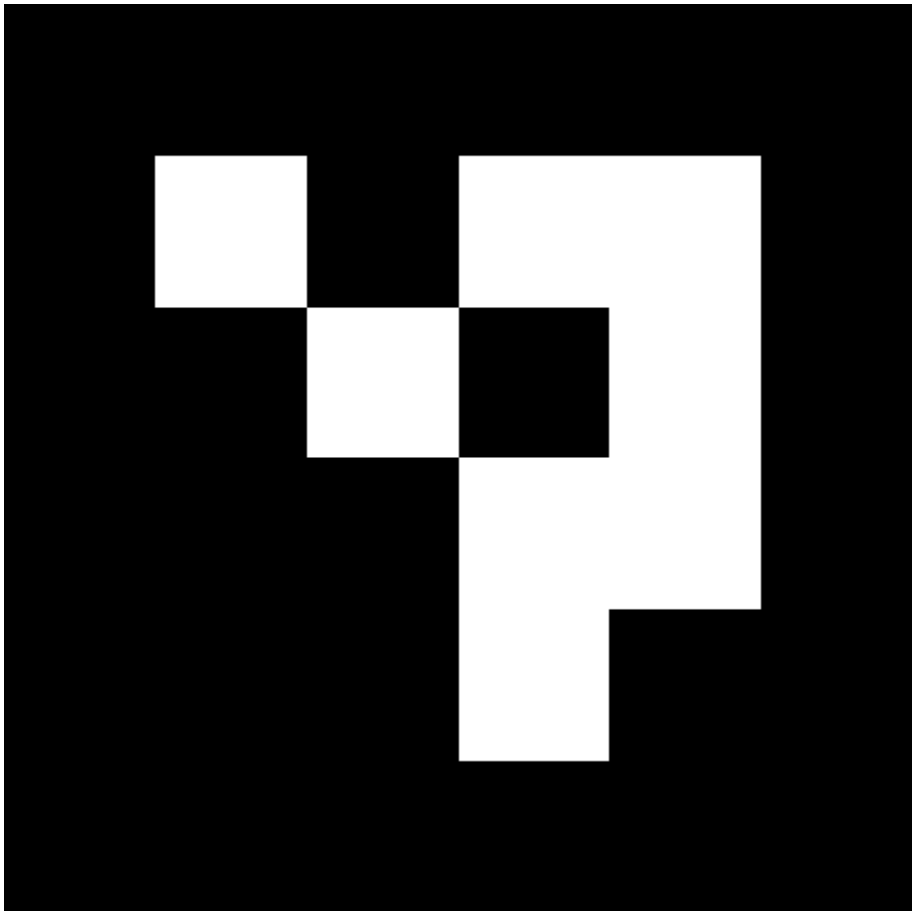
ArUco marker ID 0

DICT_4X4_50 · print at 100% / actual size · do not scale



Side length when printed at 100%: 12.0 cm

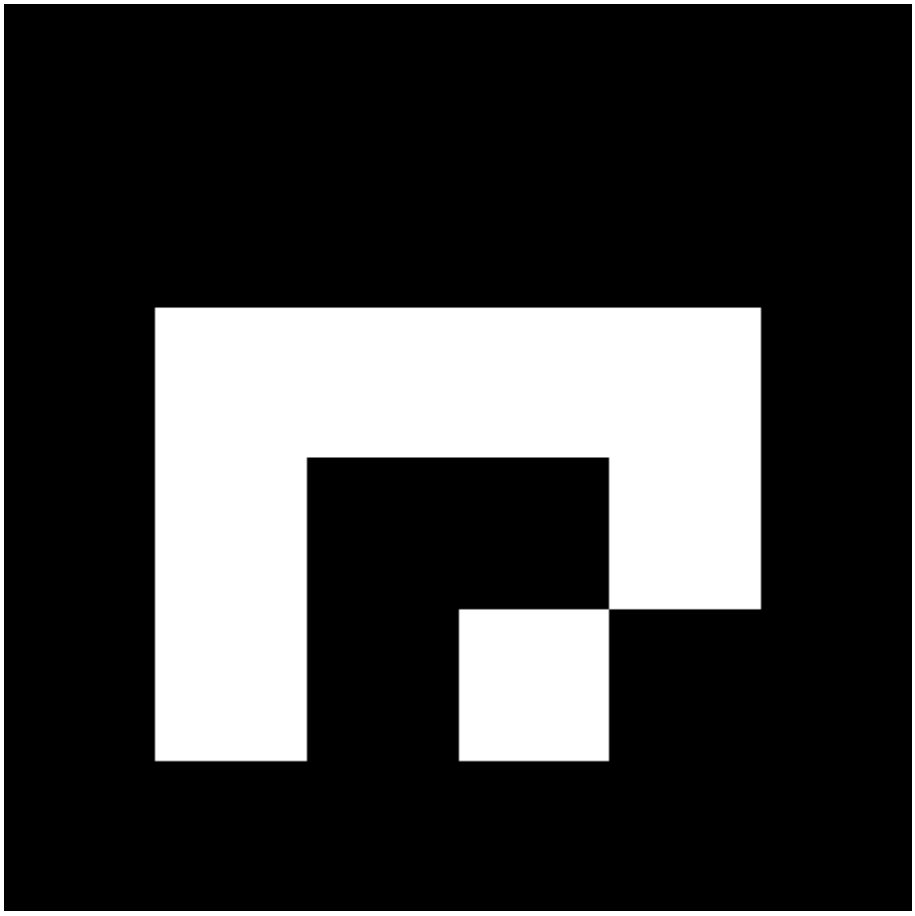
Measure and write down the position of this marker's
TOP-LEFT corner on the wall, in centimetres:

X = ... cm Y = ... cm

X = horizontal distance from your chosen wall origin
Y = vertical distance from the same origin (up is positive)
Use the SAME origin for all four markers.

ArUco marker ID 1

DICT_4X4_50 · print at 100% / actual size · do not scale



Side length when printed at 100%: 12.0 cm

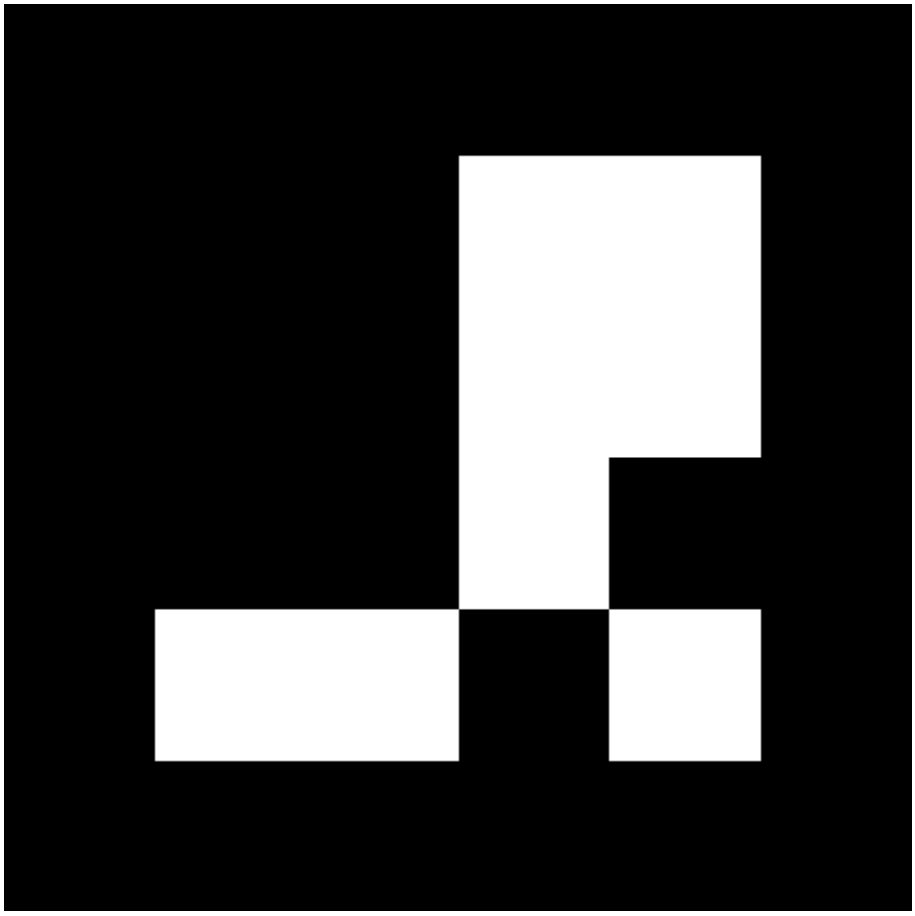
Measure and write down the position of this marker's
TOP-LEFT corner on the wall, in centimetres:

X = ... cm Y = ... cm

X = horizontal distance from your chosen wall origin
Y = vertical distance from the same origin (up is positive)
Use the SAME origin for all four markers.

ArUco marker ID 2

DICT_4X4_50 · print at 100% / actual size · do not scale



Side length when printed at 100%: 12.0 cm

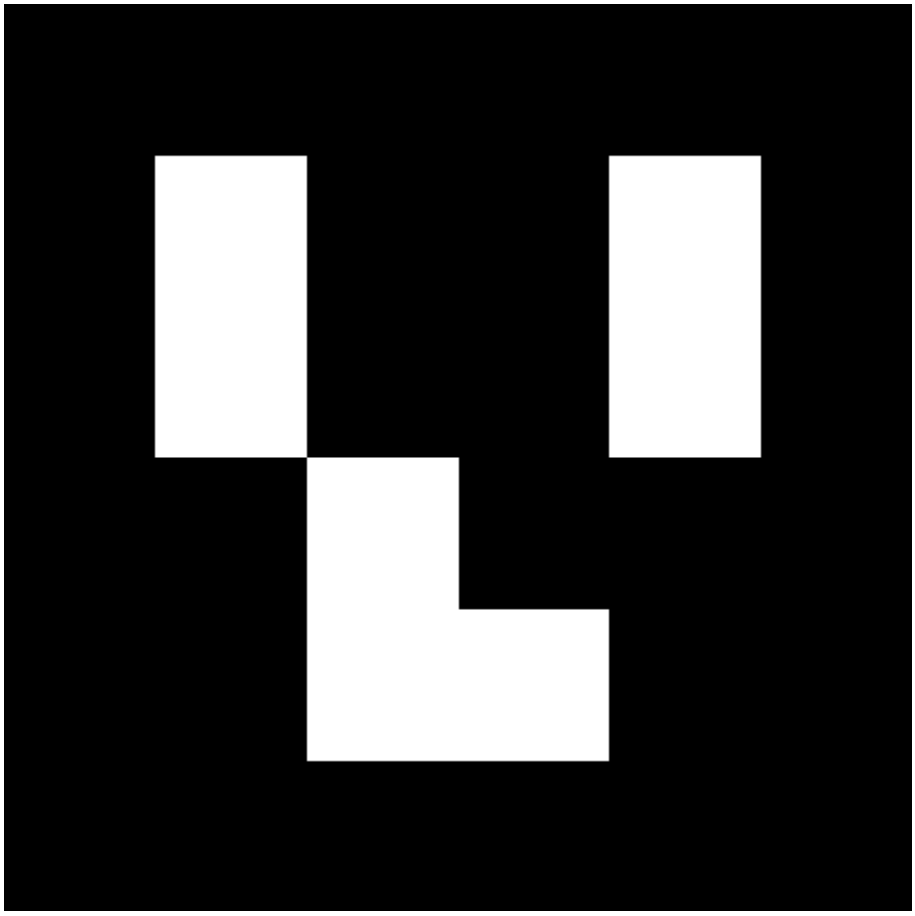
Measure and write down the position of this marker's
TOP-LEFT corner on the wall, in centimetres:

X = ... cm Y = ... cm

X = horizontal distance from your chosen wall origin
Y = vertical distance from the same origin (up is positive)
Use the SAME origin for all four markers.

ArUco marker ID 3

DICT_4X4_50 · print at 100% / actual size · do not scale



Side length when printed at 100%: 12.0 cm

Measure and write down the position of this marker's
TOP-LEFT corner on the wall, in centimetres:

X = ... cm Y = ... cm

X = horizontal distance from your chosen wall origin
Y = vertical distance from the same origin (up is positive)
Use the SAME origin for all four markers.
